

Registered Manager Training (CQC) for Adult Care Professionals

The [Registered Manager training \(CQC\)](#) is a vital qualification for professionals aiming to lead adult care services with confidence and compliance. At Verrolyne Training, our RQF Level 5 Diploma in Leadership and Management for Adult Care (Dementia Pathway) equips learners with the advanced knowledge and skills required to meet CQC standards while delivering exceptional care.

This course covers key areas such as leadership, safeguarding, team management, and person-centered dementia care, ensuring managers are fully prepared to handle the responsibilities of senior roles.

Delivered online, this program provides the flexibility to study around work and personal commitments, making it ideal for current or aspiring care home managers, deputy managers, or senior supervisors.

By completing this diploma, you will not only meet CQC requirements but also enhance your career opportunities and contribute to raising care quality.
